The Theme for the
2025 Convention is

*“Nurturing Oneness
as a Living Power”*

The Temple Seal

The Social Science Talks will be held on Saturday, August 9. This is a time to share reflections on the Convention theme and the place of the Temple in your life. Remarks of up to 300 words are welcome. If you cannot be with us in person, offerings received by July 31 may be translated and read at that meeting in the Temple. Please email to:

**The Conscious Cohesion
of diverse polarities is the
aspirational action of
Oneness.**

THE TEMPLE OF THE PEOPLE was founded in November of 1898 in Syracuse, New York, and moved to Halcyon, California, in 1903. The Halcyon community, clustered around the Blue Star Memorial Temple, is actively dedicated to living the Teachings of the Temple.

The Temple Teachings are firmly rooted in Theosophy and Indigenous American wisdom, and are filled with practical directions which help in all aspects of our lives. These teachings help cultivate the ability to realize that we are a balance of both the human and the divine. The freedom attained through this equilibrium grows as the desire, the wonder, and the love of learning spiritual truths energize our efforts to make divine spiritual unity part of our everyday affairs.

The foundation stones of the Temple are Religion, Science, and Economics: There can be no true religion without its scientific basis, and there can be no right system of economics not based on a science that is religious and a religion that is scientific. These three aspects are of equal importance.

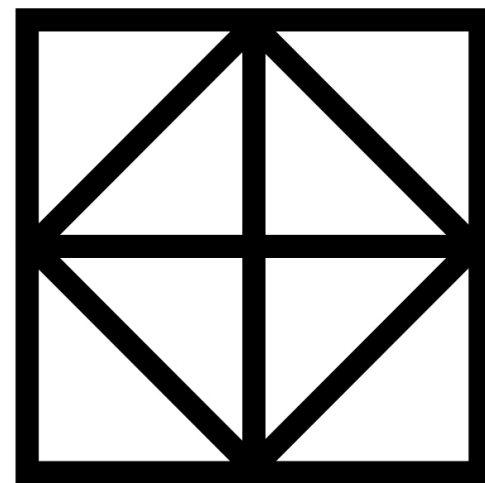

The Temple of the People has always recognized the value, importance, and self-responsibility of each individual. Its reason for being rests on the inviolability of the Golden Rule.
