Temple Square Diagram Meditation

The 126th Convention | August 2 - 10, 2025

You see before you the Temple Square Diagram, which is a matrix for Temple study classes. This two-dimensional template symbolizes the archetypal journey toward recognition of our connection to all life. Its womb-like shape represents the birthplace of divine intelligence, unity, and intuition within each member of our study groups.

The Temple officers hold their points where the arms of the cross meet on the oval. At the center is the fifth point, the *Quintessence*, the sacred portal through which the Great Universal Force flows to us and through us, harmonizing and balancing the qualities that characterize us both as individuals and as a group.

May we practice mindful presence through recognition of the responsibility to the group assumed by the Temple officers, who are:

Outer Guard:	George Colendich
Inner Guard:	Rita Moiseyeva
Scribe:	Richard Berg
Treasurer:	Marti Fast

Let us join together in creating a sacred space wherein our words and actions contribute to the greater good and unity of all.
