

THE TEMPLE OF THE PEOPLE
The Master's Message to the 2026 Convention

My Spiritual Family,

This yearly gathering of meaning and warmth in Convention is a sacred binding, never to be taken for granted. For those of you who long for more frequency of connection with Me, be assured that the nature of its timing is attuned to the purpose being served.

The spiritual Principles of the Temple were born under the impulse of the Central Spiritual Sun and manifested within various Orders and Degrees of life, in unity with the Creative Law. That Law penetrates every point in the Universal Womb of outer existence, in a vast correspondence to the Father-Motherhood of Family and the Sister-Brotherhood of Community. As the sacredness of the Creative Law is recognized by each human Soul, the waters of Life, which flow from the elusive inner spiritual Oasis to the parched desert of material illusion, are increased as a Source for all humanity to draw upon.

Within you are certain capabilities, including the capacity to hold fast to what you treasure, the potential to forgive others, the willingness to release hindrances to well-being, and the fortitude to endure scarcity and make ends meet. The vigor of these strengths is diminishing more rapidly than you might imagine, as irresponsible and self-indulgent behaviors align with emerging dysfunction and insatiable ambition to overpower the boundaries of common sense. Under the eternal implications of Karma, you are charged with holding to your spiritual aspirations, your Higher Self, your Spiritual Point, and your duty to treat each other with civility; for even as the human race evolves through cycles within cycles of experience and tests that initiate new phases of spiritual evolution, the consequences of disregard for the broken Law continue to challenge the diverse Cultures of Humanity.

As Sisters and Brothers in the human family, your ability to thrive depends now more than ever on living in accordance with the Laws of Centralization, Unity, Polarity, Cycles, Karma, and Reincarnation. There is no misusing the sacredness of intellect; there is no debating with the Creative Law, the Highest Law cognizable by the aspiring student of Life. My Kindred Hearts, do you not yet realize your accountability to that Law of life and growth?

Varying degrees of fear remain resident within the insidious lower trinity of ignorance, arrogance, and hypocrisy, all well entrenched in the actions of the human race. Just as a jagged splinter can fester and cause infection, fever, and delirium, the health of the entire body is at risk without intervention. Do not dither, for dis-ease is the essence of the lower trinity. You can only serve one Master, and under the ever-present testing of the Higher Law, you must act if you are to elevate the human race and transform that lower trinity into accountability, humility, and honesty. You must choose to live in accord with the sacredness of Gratitude and Obedience to the Creative Law.

In the process of developing a true understanding of the interdependence between all life and between Matter and Spirit, you have been assured time and again that “there are no little things.” Over vast ages and in countless ways, the Creative Law has been revealed in form and symbol as a Source of Power greater than yourselves. However, you must apply keen spiritual discernment to the plethora of sources, with their voices, motives, and interpretations beckoning your attention, — a proficiency that can only be developed through Faith and Trust over lifetimes of experience. As the Creative Law nudges you ever closer to the Path of “Know Thyself,” certainty will grow ever greater that in you “dwelleth every good and perfect Spirit.”

From a heartfelt smile to a hateful word, it takes but little to impact a relational dynamic through a selfless — or a selfish — thought, word, or deed. Remember, the most sacred principle of life, Unity, is reflected in the age-old precepts, “As above, so below” and “As within, so without.” When applied to the physiology of the human body, you have at your fingertips access to a blueprint for understanding the workings of the Universe and the interdependence of all things.

All cycles have their beginning, middle, and end. Our present existence began with the awakening of a new Manvantara and the initial impulse from the Central Spiritual Sun. That Divine Entity emanates from the Absolute, the Unknowable Creator; and from that Source, the Love of the Creative Law shines into all manifestation.

Operating under the Creative Law is the Evolution of Matter, Force, and Consciousness, the Triple Key that unlocks the hidden doors to the Divinity of Mother Nature. With the guidance of the Law of Correspondences and the heart’s intuition, you may discover the scientific basis for a true religion, you may understand the absence of black and white from the colors in the rainbow, and you may strengthen your connection to the presence of the Avatar — the overshadowing Christ — as a living Power in your life.

Becoming One with and faithfully applying the Ten Rules of Discipleship is imperative to building character and proficiency, as you practice living by the Golden Rule. My Cherished Ones, learn to be grateful and obedient to the spiritual principles within these Rules, for each is a Guiding Light illuminating the way through the shortsightedness of lower desires. If you relinquish that responsibility, you derail recognition by future generations of the true nature of their usefulness and unity, both essential for bringing loving meaningfulness to and through their work. The resulting well-being inspires cooperation, harmony, and resilient economic conditions. Meeting those needs is the Golden Rule in action.

Modernity feeds the capacity to circumvent humanity's foundational alignment with the Creative Law. Within the lower trinity of ignorance, arrogance, and hypocrisy, such misalignment camouflages what is truly Sacred; for without the Light of Gratitude and Obedience to the Creative Law, your ability to make choices — your free will — becomes susceptible to the shadowy depths of your own creation. In the disguise of unbridled freedom, that malignancy is a means for you to unknowingly debilitate the essence of Unity in all its manifestations.

To be truly Obedient to the Creative Law is to know a perennial sense of Gratitude, to have an inner pilot light radiating a feeling of joy and peace, a feeling as ever-present as is delight in the sweet fragrance of a flower, the melodic song of a bird, the precious smile of a child.

Whether known as God or Love, the Creative Law may only be appealed through the Higher Self; and though intolerance to “Let Time and Patience to do their perfect work” may seem to suggest otherwise, Divine Justice is inviolable and may never be overruled. Never.

In Spiritual Aspiration and Eternal Kinship,

— Hilarion
