

Outer Guard Report 2026

George Colendich

I stand here today to simply declare my belief and bond to the Temple of the People. I have presented my earthly human form as my testimony to this center and the city that is to be, slowly being built up from long ago. I am “holding my point,” like you, holding your point.

As the Outer Guard, I chiefly serve during the Feast of Fulfillment and the monthly meditation service reading past Masters’ messages which is the focus for the meditations. The position is one of service to all the people and all aspects of living in the village of Halcyon.

The position of Outer Guard as stated in the statement of “Principles and Organization of the Religious Society”: “symbolizing the responsibility to the masculine aspect of life, the protecting, questing balancing force.”

What does this mean? How does this work?

The position is involved with emphasizing and using its “force” as its primary description. In particular it is the Father force which is magnetically positive and like a compass points northward as one of the 4 main compass points.

The position is part of a group of seven officers, 4 at this center, and 3 officers at large. This is the inner wall around the Guardian in Chief. It takes the Temple group to build the Temple, all developing and holding on to their point, being living stones within the Temple guardian wall.

The Blue Star Memorial Temple is filled with many symbolic man-made features like doors, windows, walls and concrete columns that we see. How about what we don’t see, like the masonry blocks made by Temple members’ sweat and blood, using materials like sand and rocks from the nearby creek cast in homemade wood forms?

Look up now to see the center light in the bare simplicity of the 3 largest roof beams converging at the same point. When this Temple was built, the roof was the last part of the structure to be built, completing the building. It clearly was planned to make its central point high as it could to be placed at the apex of the roof. When I came here in 1974, a translucent fire-like shape glass lamp glowed with light atop the Temple, which

could be seen from far distances. The interior structure, all originating from this upper central point, were the three descending massive beams that projected outward and down to meet the 3 wall corners. This upper central point is symbolically the higher self and the source of all that the remaining structure and we could be.

When we say I AM ONE WITH GOD and look up to this central point we connect the I AM with the ONE in the Temple, which is the source of all other numbers, chiefly the number 3 as the open sesame and source of all creation to all of the number 4's below. It is the 3 fundamental upper triangles that extends outward and below to become the lower 4 or cube of manifestation. This cube is the reflection of its upper pyramid of triune forces.

We have been stating this same process over and over again endless times in the mantram "WORDS OF FORCE": "Out of the darkness shineth the light of the glorified Triple Star, into the hearts of humanity, raising the pulse of the cosmic heart and driving the shadows into the blackness of the great abyss."

We are receiving the light from above, purifying our heart below inside of this heart shaped Temple.

What is the one universal and singular duty of all Templars?

Part of the higher purpose message from master Hilarion states, "The aim of all those who are true Templars, was and still is the preparation of a **place** where it might become possible for the overshadowing Christ to **enter**...." A great people that can be uniquely prepared, willing and able to receive this overshadowing Christly Force from above within their own hearts. It is the fruition of all dreams of winning the battle of the self with all other selves in the realization of the Avatar's presence. It is the next major step in evolution to unify all the people of this planet.

I will end with a short poem that I wrote after seeing an oil painting of the village of Halcyon, entitled *Village of Halcyon*:

*An approaching shadow of a new city that was ever to be held in safekeeping,
deep within the heart of man the People's city, brightest city of the western hemisphere,
built by peoples of the Earth, that no earthly power may break
Midst of a four acre temple made of crystalline glass, a living replica of the morning
stars above and promise of the new humanity to be.*
